Welding on Trailers Equipped with Haldex ABS Products

Haldex Commercial Vehicle Systems specifies very few requirements when welding on a trailer equipped with a Haldex ABS System:

- ✓ Weld only when the trailer is not attached to the towing vehicle.
- ✓ Take precautionary measures to protect against extreme heat, flying slag and/or molten metal.
- ✓ Never connect power to the 7-pin connector or to the ABS System when welding on the trailer.

Haldex does not require the disconnection of any ABS wire harnesses when welding on the trailer due to the fact that the ECU circuits have been specially designed to protect against transient voltages which can occur during welding.

For additional information or assistance, contact your local Haldex Sales Professional or a member of the Haldex ABS Engineering Team at (816) 891-2470.
